SMART SOLAR BENCH

- SOLAR ENERGY
- WIFI INTERNET
- USB CONNECTION
- WIRELESS CHARGING
- AUTOMATIC COOLING
- LIGHTING

The Solar-Powered Bench: A Smart Solution for Modern Life

Imagine this: You’ re rushing home after a long day, but you miss your bus, and your phone dies—no way to check schedules, call a ride, or even kill time. Suddenly, you spot a bench that not only lets you sit but also charges your phone and offers free Wi-Fi. That’ s the power of a solar bench, a simple yet revolutionary piece of urban furniture that turns a frustrating moment into a manageable one.

More Than Just a Seat

A solar bench isn’ t just a place to rest—it’ s a multifunctional hub. Equipped with USB ports or wireless charging, it keeps devices powered up, eliminating the panic of a dead battery. Some models even provide Wi-Fi, turning public spaces into connected zones. Beyond convenience, these benches can enhance safety with built-in lighting or monitor environmental data like air quality, making them valuable for smart city initiatives.

Where Should Solar Benches Be Installed?

Since they’ re entirely solar-powered, these benches don’ t rely on grid electricity and can function even after several cloudy days. But placement matters for maximum impact. Ideal locations include:

Transport hubs – Bus stops and train stations, where travelers often need a charge.

Public spaces – Parks, libraries, museums, and info centers, where people linger.

Schools & campuses – Students rely on devices for learning and communication.

Fitness areas – Outdoor gyms and trails, where users stream workouts or music.

In smaller towns, even one well-placed bench—near a popular square or community center—can make a big difference.

Why Cities Are Adopting Solar Benches.

As urban areas prioritize sustainability and connectivity, solar benches offer a practical solution. They reduce reliance on traditional power sources while meeting modern needs like device charging and internet access. For tourists, they’ re a welcome amenity; for locals, they’ re a daily convenience.

The Future of Public Spaces.

Solar benches exemplify how smart design can enhance everyday life. By integrating renewable energy with technology, they turn ordinary benches into essential infrastructure—proving that even small innovations can have a big impact.

And how to choose a place in yourtown?

Solar benches in tons, villages andalso in entertainment resorts, suchas Lipno, are increasing. But thenagain, there's no need to have onein every 50 metres of a city park. It'seven unnecessary. in a small village,one is quite sufficient . but it mustbe conveniently located. in a placewhere the most people -locals ortourists -will beneft from it. Hereare some examples of suitableplaces:

- At outdoor gyms and fitness parks
- Close to bus stops and train stations
- In front of an information centre,library, museum or any ofhce
- At schools or campuses
- In a park or natural swimmingPooL

SunMaster specializes in the production of various types of solar equipment, Start your joumey at www.chinasunmaster.com

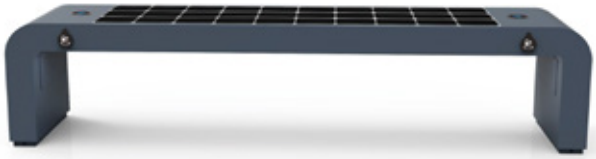

Smart Solar Bench

PRODUCT PARAMETER

MODEL:SMZY-003

Dimensions: 1700*450*450mm
Solar Panel: 90W
Battery capacity: 12v/45Ah
USB charge:2PCS
Wireless charge:2PCS

MODEL:SMZY-005

Dimensions: 1800*450*450mm
Solar Panel: 90W
Battery capacity: 12v/45Ah
USB charge:2PCS
Wireless charge:2PCS

MODEL:SMZY-011

Dimensions: 1810*550*450/730mm
Solar Panel: 90W
Battery capacity: 12v/45Ah
USB charge:2PCS
Wireless charge:2PCS

MODEL:SMZY-014

Dimensions: 1800*550*450/900mm
Solar Panel: 90W
Battery capacity: 12v/45Ah
USB charge:2PCS
Wireless charge:2PCS

Smart Solar Bench

PRODUCT PARAMETER

MODEL:SMZY-022

Dimensions: 2000*500*430/2400mm
Solar Panel: 90W
Battery capacity: 12v/45Ah
USB charge:2PCS
Wireless charge:2PCS

1ODEL:SMZY-019

imensions: 2030*680*430/3090mm
olar Panel: 90W
attery capacity: 12v/45Ah
SB charge:2PCS
/ireless charge:2PCS

MODEL:SMZY-028

Dimensions: 1200*1200*450/2500mm
Solar Panel: 90W
Battery capacity: 12v/45Ah
USB charge:4PCS
Wireless charge:2PCS

MODEL:SMZY-029

Dimensions: 1880*1700*450/760mm
Solar Panel: 90W
Battery capacity: 12v/45Ah
USB charge:4PCS
Wireless charge:2PCS

MODEL:SMZY-023

Dimensions: 2960*1200*450/2500mm
Solar Panel: 90W
Battery capacity: 12v/45Ah
USB charge:2PCS
Wireless charge:2PCS
